"And perhaps because such arts have not the power they once had," he said. He did not know himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. They must take their chances, like everyone else. He opened their gate a little. Though the rain was no more than a misty drizzle now, they stayed hunched up under the henhouse eaves, disconsolate. The King had not crowed once this morning..He had made a little heap of bits of eggshell on the ground by his knee. He arranged the white fragments into a curve, then closed it into a circle. "Yes," he said, studying his eggshells, then, scratching up the earth a bit, he neatly and delicately buried them. He dusted off his hands. He named the Masters, Hand and Herbal, Summoner and Patterner, Windkey and Chanter, and the Namer, and the Changer. "The Changers and the Summoner's are very perilous arts," he said. "Changing, or transformation, you maybe know of, mistress. "Hound," he thought. He spoke the summoning. "What's that all about?" Golden said to his wife, a rhetorical question. "By the grace of water, that carries no scent," Otter said, standing up. A litter of walnut shells. the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the drift of cloud, the long ridge of the mountain glimmered red. Printed on narrow sands under granite cliffs, in the first light, were the tracks of a bird alighting. From them led the tracks of a man walking, straying up the beach for a long way as it narrowed between the cliffs and the sea. Then the tracks ceased. "If somebody could talk to her people there, they'd get word to her. Her brother, Littleash, used his arm and hip and head. Then the darkness came around him, and then nothing." "It's nothing," he said. In fact, rather to his annoyance, the cut had stopped bleeding. The woman's gaze returned to his face. They paid no attention to me, as if I did not exist. I got furious. Without a word I stepped. "Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and died, eh?" "Not by chance." To which Silence of course had said nothing, letting him hear what he had said and feel its foolishness thoroughly. Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea. He talked, turning sometimes to Otter to guide him or warn. "What's Alder paying you for all this?" she demanded while the water was heating. She was still indignant, speaking more bluntly even than usual. And Dulse was standing on his own doorstep, three eggs in his hand and the rain running cold down his back. The Lord of Wathort's owned it for forty or fifty years." Highdrake took Medra as his student, gratefully. "I was taught my art by a mage who gave me freely. When Diamond put the lists of names to tunes he made up, he learned them much faster; but then the tune would come as part of the name, and he would sing out so clearly-- for his voice had re-established itself as a strong, dark tenor -- that Hemlock winced. Hemlock's was a very silent house..son," he said. "And greater prizes to be earned." He was angry then, very angry, a hungry man whose food is snatched from his hand. He summoned the man Tern to reappear, but he did not know his true name and had no hold of heart or mind on him. The summons went unanswered. showered with a fine powder of disintegrating, dying fireflies, black, gold. At the very edge, a
