Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. "So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. And he had seen her, years ago, in the vision of the dying healer in Telio, in the twilight, beside the wall of stones. She came there. She came to me, not in the body, and guided me to the track. She was only twelve. "They show me what I should do," Irioth said, "and who I am. They know my name. But they never say it." It was right. Nothing was wrong. Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to

rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses, jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. He disliked going aboard a slave ship, but the only vessel going out of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there. So he went as a weatherworker on the galley, which was rowed by forty slaves.. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble between sorcerers over work was nothing new and nothing to take on about. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. "There was no place for him among the Masters, since a new Master Summoner had been chosen, a strong man in his prime, not likely to retire or die. Among the scholars and other teachers he had a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little.
