His mind wandered. "Eyelash" in the True Speech is siasa, he read, and he felt eyelashes brush his cheek in a butterfly kiss, dark lashes. He looked up startled and did not know what had touched him. Later when he tried to repeat the word, he stood dumb.. "Magic won't die on Roke," said Veil. "On Roke all spells are strong. So said Ath himself. And you have walked under the trees... Our job must be to keep that strength. Hide it, yes. Hoard it, as a young dragon hoards up its fire. And share it. But only here. There was no fault, only the great innocence. No need for words. They would not find him here. He was not here to find. There was no need to speak any name. The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent

him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater. "Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me." They can, and will. And if you reveal yourself, they will punish you. And me." He put a ponderous emphasis on the last word, and inwardly murmured, "Avert." "It is. They did that? Good." more impressions. Occasionally, walking, I lost track of things, although I did not doze at all; I do. The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at accepting their judgment over his own. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened, and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed again next day for Wathort. The Windkey keeps the Roke-wind against all. After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the Eldest, brought Ged and Lebannen to Roke Island..only smeared about on his skin. "I hate mud," he whispered. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will-the will of a mage strong enough to hold even strong wizards in his service. She heard it with a mournful heart. That had been their signal, summer nights, when they sneaked out to meet in the willow grove down on the banks of the Amia, when everybody else was sleeping. She would not think of him at night. Back in the winter she had sent to him night after night. She had learned her mother's spell of sending, and knew that it was a true spell. She saw a burly, dark-skinned man and two boys come out and weed one of the vegetable plots. It eased her mind to watch their careful work. She wished she could help them at it. The waiting and the strangeness were very difficult. Once the Doorkeeper came in, bringing her a plate with cold meat and bread and scallions, and she ate because he told her to eat, but chewing and swallowing were hard work.
