It may be that the Firelord was, in fact, a dragon in human form; for very soon after his fall, Orm, the Great Dragon, who had defeated Ath, led hosts of his kind to harry the western islands of the Archipelago- perhaps to avenge the Firelord. These fiery flights caused great terror, and hundreds of boats carried people fleeing from Palm and Semel to the Inner Islands; but the dragons were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east. While he himself went west to fight dragons, he sent Erreth-Akbe east to try to establish peace with the King of the Kargad Lands. faced and bright-eyed and cheerful. He had taken it hard when his voice changed, the sweet treble. "My Lord Patterner, will you defy our Rule and our community, that has been one so long, upholding order against the forces of ruin? Will it be you, of all men, who breaks the pattern?" not see much; enough, however, to realize what a terrible fool I had made of myself. I fled as if he must be bound, named, called. Ordinary Hardic, for matters of government or business or personal messages or to record history, tales, and songs, is written in the characters properly called Hardic runes. Most Archipelagans learn a few hundred to several thousand of these characters as a major part of their few years of schooling. Spoken or written, Hardic is useless for casting spells. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (23 of 111) [2/5/2004 12:33:30 AM]. made himself comfortable in his coil of cable and watched the stars. Looking west, he saw the four. It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in it you did not always come out into the fields again. You walked on under the trees. In the inner Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In the Old Speech, Ember said, each of those trees had its own name. You walked on, and after a time you were walking again among familiar trees, oak and beech and ash, chestnut and walnut and willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen Medra did not know, with soft reddish bark and layered foliage. You walked on, and the way through the trees was never twice the same. People in Thwil told him it was best not to go too far, since only by returning as you went could you be sure of coming out into the fields. In return he told Veil and Ember about the mines of Samory, and the wizard Gelluk, and Anieb the slave. even then, if a wizard met up with one whose powers were greater than his own, he might be. He was so distraught that when he made up his mind to call Silence he could not think of the opening of the spell, which he had known for sixty years; then when he thought he had it, he began to speak a Summoning instead, and the spell had begun to work before he realised what he was doing and stopped and undid it word by word. grim-faced old Namer. They had no patience with him either, always at him to hurry up and get done with the job; nor with themselves, their life. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him. He was afraid of doing wrong to them. Once, when they had gone a long way and the trees, dark evergreens she did not know, stood very. He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. Where to, dowser?" had not come from Roke to trudge about on foot in the mud and dust of country byways. The wizard stepped forward. "I come," he said in his joyous, tender voice, and he strode him. Later when he tried to repeat the word, he stood dumb. "That's Roke Knoll, lad," the weatherworker said to Dragonfly, who stood beside him at the rail, "We're coming into Thwil Bay now.

Otter knew that a moment was coming when he might get free of Gelluk: of that he had been sure since last night. He knew also that in that same moment he might defeat Gelluk, disempower him, if the wizard, driven by his visions, forgot to guard himself-and if Otter could learn his name..They had to share a room at the crowded inn with two other travellers, but Ivory's thoughts were perfectly chaste, though he laughed at himself a little for it.. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside'. She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light..Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was..poor and powerless might learn what power is.. But, as there are ascetics among humans, some dragons are greedy for shining things, gold, jewels; one was Yevaud, who sometimes came among people in human form, and who made the rich Isle of Pendor into a dragon nursery, until driven back into the west by Ged. But the marauding dragons of the Lay and the songs seem to have been moved not so much by greed as by anger, a sense of having been cheated, betrayed..The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove..there was nothing much to say about herself.
