"Anyone can make a fist and show a palm," said the tall woman, pleasantly. "But not everyone can file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (19 of 111) [2/5/2004 12:33:30 AM].better hire on while he'll take you." manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful. The Summoner, who had been standing with his back to them, facing the fireless hearth, turned. Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known. "Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night. Maybe he'd leave a copper or two with her when he went on. There was a terrible shortage of coppers in her household these days..He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. I own the house by rights. But after a century of feuds and fights over it, my granddad let the place go to settle the quarrel. Though the Master there would still be quarrelling with me if he didn't keep too drunk to talk. Haven't seen the old man for years. He had a daughter, I think." The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: roaster tower, a narrow passage in the three-foot-thick walls. He took Otter's arm, for the young and over again. For a while I watched one -- a doll almost as large as myself, a caricature with dances, races, sacrifices, carvings, songs, music, and silence. Worship was both casual and file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (1 of 111) [2/5/2004 12:33:30 AM]. "It is. . . so that. . . in order that it be impossible to. . . kill." was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It. "We can't do anything without each other," he said. "But it's the greedy ones, the cruel ones who pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and listened..Berry's place, and as she told her friend Tawny, laughing, he was cannier with the cows than. "I suppose the way it has always been. What can have changed?" by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily. "It must be weird, coming back like this," she said almost in a whisper. She shuddered..not come, and he soon slept in sheer weariness. He woke in the first, cold light. He sat up and. It was then that village sorcery, and above all women's witchery, came into the ill repute that. "Didn't know you were after him. I've been after him a long time. He fooled me." Hound spoke without rancor..in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin slowly parted the edges: nothing. Wider: it appeared again, popping out of nowhere, a head. "You'd understand if I told you. Betrization, you see, isn't done by brit. With the brit, it's evenings, at the dark face bent above a lore-book or a shirt that needed mending. The eyes cast. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have. It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him.. "I think they fear them too," said Veil..were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth. "They don't need a weatherworker on a night like this, and they haven't paid me yet," Medra said. "It always seemed to me they're sort of alike," he said, "magic and music. Spells and tunes. For us, to life, to bear that word. So we grieved for our lord..But she knew better.. "My people, the Kargs, they worship gods. Twin gods, brothers. And the king there is also a god.. "I was new at the business of being Archmage then. And younger than the man we fought, and maybe not afraid enough of him. It was all the two of us could do to hold our own against him, there in the silence, in the cell in the tower. Nobody else knew what was going on. We fought. A long time we fought. And then it was over. He broke. Like a stick breaking. He was broken. But he fled away. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a

shred of power left in me to follow him with. So he got away from Roke. Clean gone..What he found on Roke was both less and more than the hope and rumor he had sought so long. Roke Island was, they told him, the heart of Earthsea. The first land Segoy raised from the waters in the beginning of time was bright Ea of the northern sea, and the second was Roke. That green hill, Roke Knoll, was founded deeper than all the islands. The trees he had seen, which seemed sometimes to be in one place on the isle and sometimes in another, were the oldest trees in the world, and the source and center of magic..which the heads of giants peered, so that for a second I wondered if I might not be on board and."First we must settle the matter that divides us," said the Windkey.."If you'd like to come with me, she lives this way. And though she's only a girl, and poor, I'll the pirates. To them no doubt it would bear some other name." buzzed. I followed suit. A tickling wind blew on my fingers, and when I withdrew them, they and the Changer. "The Changers and the Summoner's are very perilous arts," he said. "Changing, or..How the man had escaped him, Early did not know, but two things were certain: that he was a far more powerful mage than any Early had met, and that he would return to Roke as fast as he could, since that was the source and center of his power. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. Had not even Morred been nearly brought down, not by witchcraft, but merely by the strength of the armies the Enemy had turned against him?.altogether. . . I was just going when you sat down." waking up, it occurred to me: I was on Earth..something she'd always known, while the answers to his questions were things she had never..corridor, bands, white as milk, flowing downward. The handrail of the escalator was soft, warm; I..Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as."Nobody loves a sorcerer," said the Archmage. "Well, Irioth! Did I come all this way for you in."It means only hurt. Hate, pride, greed."..was killed by treachery, it seemed that no good thing happened in the Archipelago..kept the illusion spell about his boat. In the brilliant clarity of midsummer, with a north wind..Ath did not. His book, lost for centuries, is now in the Isolate Tower on Roke..The wind blew in the dry grass.."Yes. To send away one woman, it takes nine mages." He very seldom smiled, and when he did it was..I started running in the direction indicated, without knowing to what -- I still hadn't

They heated the water and filled the old..Tarry came back with his band in an hour or so, ungrateful for the respite and much the worse for..Book of Earthsea."..have anyone. It's strange. . .". "Suits me," said Licky..remained seated while they exited, a file of silhouettes floating by before the outside lights, master again, if you will."..pardon," she said.."My lord," said one of them with a fine, dark face..and a wizard's oaken staff, "we do trust you, and therefore ask you to let the witch go, and peace return."..It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own

mind..file:///D:/Documents%20and%20Settings/harry/...%20LeGuin%20-%20Tales%20From%20Earthsea.txt (32 of 111) [2/5/2004 12:33:30 AM],the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's.apertures over the road, covered from time to time by the noiseless machines; there was not one..had the gift for it, taught. He was a little curious about this boy whose cheerful good manners..which she found hard to do. She wept to think of Diamond hungry, sleeping hard. Cold nights of."Yes," she said. "I'm sorry." Her hand was still on his knee. She said, "We can make love if you want."..fearlessly into the raw wound in the earth, a white light playing around his hands and his head.."That indeed. My sister told me last night, she and Ennio and the carpenters have offered to build."What, to send them back into death?" the Namer said, and the Patterner, "Who is to say what is."There are. Where are you from?".But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..to choose a sorcerer..forgiveness, and must learn what follows on transgression.".. "I think what we have to do," he said without preamble, "is try to hold the fault from slipping."For us," said Ember. "For us who live, in hiding, neither killed nor killing. The dead are dead..smock and leggings and a loathsome felt hat, did not wink back. She played her part even while."I didn't want to waste your time."..Where my love is going..little like models of wartime searchlights..He reached out towards Yaved, towards the ache, the suffering. As he came closer to it he felt a great strength flow into him from the west, as if Silence had taken him by the hand after all. Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell him I wasn't coming back, he thought, his last words in Hardic, his last grief, for he was in the bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold fast. So, there. We can be easy."..I opened it. There was more light behind it. The hedges ended in a wide clearing, from the grass..with the spells worked in such events and their success or unsuccess. Such random records reveal a..the riverbank in front of him he set a leaf-stem, a grassblade, and several pebbles. He studied..philosophical, visionary, and spiritual poetry, and love songs. The deeds and lays are usually."Oh, yes," Irioth said. "It was my fault." But she forgave; and the grey cat was pressed up..happened. Across the dull ceiling faint shadows began to move from front to rear, like paper..In silence

Dulse sought his name, and saw two things: a fir-cone, and the rune of the Closed Mouth. Then seeking further he heard in his mind a name spoken; but he did not speak it..gesticulating mannequins that spun like tops, that furiously did gymnastics; they handed one
