But I couldn't figure out a pattern for the victims: male, female, little kids, old aunties, married, unmarried, rich, poor, young, old. No pattern of any kind, and there's always a pattern. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. "Is it really?" .A highly depressing idea, but he did not on that account roll out the console to select a remedy from the menu. He knew from long experience that whatever could make him palpably happier was also liable to send him into a state of fugue in which conversation in the linear sense became next to impossible. So he passed the time till the next switchover by working out, hi his head, the square roots of various five-digit numbers. Then, when he had a solution, he'd check it on his calculator.
