"What did you find this time, Harry? A nest of international spies or an invasion from Mars?" I guess Harry Spinner wasn't much use to anyone, not even himself, but I liked him. He'd helped me in a couple of cases, nosing around in places only the Harry Spinners of the world can nose around in unnoticed. Detweiler left his room that afternoon for the first time since I'd been there. He went north on Las Palmas, dropped a large Manila envelope in the mailbox (the story he'd been working on, I guess), and bought groceries at the supermarket on Highland. Did that mean he wasn't planning to move? I had a sudden pang in my belly. What if he was staying because of his friendship with me? I felt more like a son of a bitch every minute.. At the Union Hall this evening the Organizer told us that another meeting between the Company and the Union has been arranged and that it's scheduled to take place day after tomorrow. This time, there's going to be a Mediator present? one that the King himself appointed. Maybe now we'll get somewhere. I hope so. We've only been out a week, but it seems twice that long, with nothing to do but hang around the house and with Debbie wondering out loud all the time about what we're going to do when our savings run out. The error is that all proofs must be of the "hard" kind, i.e., cut-and-dried and susceptible of presentation in syllogistic form. An acquaintance with the modern philosophy of science would disabuse people of this notion; even a surprising amount of scientific proof is not of this kind. As philosophers since Plato have been pointing out, aesthetic and moral matters are usually not susceptible of such "hard" proof..Selene went on exercising. "She won't ask. By focusing on the interior of a speaker's larynx and using infrared, he was able to convert the visible vibrations of the vocal cords into sound of fair quality, but that did not satisfy him. He worked for a while on vibrations picked up from panes of glass in windows and on framed pictures, and he experimented briefly with the diaphragms in speaker systems, intercoms and telephones.
