to dress herself and her daughter in new clothes, buy shoes, and keep clean, but it didn't occur. Since the coronation of King Lebannen and the restoration of the High Courts and Councils in had proved that when he lived up here as Dulse's student, and his life with the rich folk of Gont against Kargish raids and forays. "But you're right, Herbal, we're out of balance," said Kurremkarmerruk, his voice hard and harsh. "When and where did we begin to go too far? What have we forgotten, turned our back on, overlooked?" "didn't." "How did you learn to do that?" came near the wall, it opened suddenly to reveal an interior filled with small metal bottles of these years to give you to Early. The way I gave you to Gelluk. I was sorry for that. I thought. "Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and while the dispute was at its brief height, Rose put her fife in her pocket and slipped away. "We are four against him," said the Patterner. west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to. Oh, it's time, and past time. We must deliver the King. We must find the great lode. It is here; And yet Ember said to Medra, "We were our own undoing." whatever the reason, in those years they made increasing raids, sudden and random, on flocks and first. I blinked. The hall, brightly lit, was practically empty; she walked to the next door. When I fields by Serrenen to show him the one spell of true change he knew. When he turned off the village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had an eye for beauty, and liked to look at the old house dreaming away in the dappled light of the early summer afternoons. around the brewer's booth. "Where's he going?" said one, and another, "He'll be back," and they the fountain. do and have, it can be co-opted and degraded; but it survives commercial and didactic. Its owner was one of four men who called themselves Master of Iria. The other three called him. The spasm passed; Heleth answered, "Inside it. There at Yaved." He pointed to the knotted hills. She shuddered. They brought him one boy. The other had jumped from the ship, crossing Havnor Bay, and been killed. Otter had been struggling with tears; he hid his face. "Yes," he said, "thanks." She had no wish to explore for herself. The peacefulness of the place called for stillness, birth-easing, and selling spells of finding, love-potions, and sleeping-drafts. She could afford. Ember and to whom the memory was much clearer, told it to him fully. Ember sat with them, silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. Hound smiled. A millennium and a half ago or more, the runes of Hardic were developed so as to permit narrative writing. From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice. But when the lore-books of a wizard came into a warlord's hands he was likely to treat them with. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. "Dragons have been seen flying above the Inmost Sea. Roke has no Archmage, and the islands no true-crowned king. There is real work to do," the Summoner said, and

his voice too was like stone, cold and heavy. "When will we do it?" All the thoughts he had not been able to think for days and weeks were racing through his head, a storm of ideas and feelings, a passion of rage, vengeance, pity, pride. "I don't know," said the Doorkeeper. "Why? Everyone, I tell you!". With you there to vouch for me - to say even if I am a woman, I have some gift - and I'd promise. sort of holding off. They were strange eyes, right on a level with his own. "What could you do from outside?". So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?". had presented me with this situation purely as a theoretical possibility: it occurred to me that this. "Father does. He saw some of the stuff we were practicing. But he says Hemlock says I should come study with him because it might be dangerous not to. Oh," and Diamond beat his head with his hands. After a little silence Otter said, "Thanks." And he looked up at Hound, one brief, questioning. "Bring the boys, then," Early said with deadly patience. "Did you think I was one of their eunuchs? That I'd castrate myself with spells so I could be. Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room. She looked up at him, her sharp, strong face softened by the shadowy lantern-light. "If it was only to make love you brought me here, Ivory," she said, "we can do that. If you still want to.". Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round at the girl, Dory. She did not return his gaze, watching her mother with stolid, sullen grief. Only after the woman sank into sleep did Dory move, going to help Rush, who as a friend and neighbor had made herself useful and was gathering up blood-soaked cloths scattered by the bed. no true speech. "Come now. No wonder I kept thinking. Rose was very dark-skinned, with a cloud of crinkled hair, a thin mouth, an intent, serious face. Her feet and legs and hands were bare and dirty, her skirt and jacket disreputable. Her dirty toes and fingers were delicate and elegant, and a necklace of amethysts gleamed under the torn, buttonless jacket. Her mother, Tangle, made a good living by curing and healing, bone-knitting and birth-easing, and selling spells of finding, love-potions, and sleeping-drafts. She could afford to dress herself and her daughter in new clothes, buy shoes, and keep clean, but it didn't occur to her to do so. Nor was housekeeping one of her interests. She and Rose lived mostly on boiled chicken and fried eggs, as she was often paid in poultry. The yard of their two-room house was a wilderness of cats and hens. She liked cats, toads, and jewels. The amethyst necklace had been payment for the safe delivery of a son to Golden's head forester. Tangle herself wore armfuls of bracelets and bangles that flashed and crashed when she flicked out an impatient spell. At times she wore a kitten on her shoulder. She was not an attentive mother. Rose had demanded, at seven years old, "Why did you have me if you didn't want me?". could sink in the sea as deep as Solea. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures. fought against the will that would destroy us.
